

School of Computer Science and Engineering

FALL 2026 – 2027

BACSE105 - Data Structures and Algorithms – Lab

Faculty Name: Dr. V. Santhi

Date: 21.07.2026

Slot: L9+L10

Venue: AB -613

Exercises – Week3:

1. **Merge Sort** - Write an algorithm for Merge Sort to sort the elements of an array in ascending order using the divide-and-conquer approach. Implement the algorithm in C language and verify its correctness using suitable sample input and output.
2. **Quick Sort** - Write an algorithm for Quick Sort to sort the elements of an array in ascending order using the divide-and-conquer approach. Implement the algorithm in C language and verify its correctness using suitable sample input and output.

Note: Upload your answer sheet in MS – Team in word/ PDF format
